

Manish K Agarwal

<https://www.linkedin.com/in/manishkagarwal/>

Sr. Director Technical Operation –

Infinera India Pvt Ltd, Bengaluru 560025

- 24+ years of progressive experience in networking Industry. Started my journey as network planner, optical engineer with service providers and for last 15 years working with networking product companies in SW engineering group.
- Major responsibilities: Product/Release delivery, Automation, Escalation and sustenance.
- Skills/Certifications: Machine Learning, GenAI, Python, PMP, Scrum, PO, Docker, K8s, AWS, Terraform(IaC), Cloud compute
- Writing blogs, learning new technologies and training

Business driven AI

- Successfully implemented GenAI tools and techniques to enhance:
 - Business profitability by identifying and mitigating potential risks.
 - Operational efficiency through automated anomaly detection and process optimization.
 - Employee experience by improving service personalization and feedback analysis.
- II. Spearheading Generative AI in Networking:
 - Currently driving research and development efforts in applying Generative AI (GenAI) to the networking domain.
 - Successfully built and demonstrated proof-of-concept (POC) solutions for internal use cases.
- III. Fostering Knowledge Sharing and Community Engagement:
 - Passionately contributing to knowledge dissemination through:
 - Regular workshops and training sessions for college students, equipping them with cutting-edge skills in machine learning, cloud computing, and GenAI.
 - Active participation in online sessions and engagement with industry groups and NGOs, promoting the responsible and impactful use of AI technologies.

Education

General
Mgmt.

Machine
Learning
IIT Roorkee

ECE
Engineering
ITM Gurgaon

Certifications

Growing Digital
great user experience
to have optimization
• With respect to compute
• And how Data is available
compute
